Target.

To complete my internship I went to Cherry Kids Play School where I was asked to speak with the children in English language, poems and games for the children. They told me to check whether all the home works were cleared and sent them to one class in a week.

Experience.

Teaching experience combines developed skills, exposure, and training that helps I do your current work more effectively and prepares you for a teaching position. It typically involves working with students or groups to facilitate their learning.

Teaching experience is the culmination of skills, exposure, or training acquired over time that enables I to perform an existing job better or prepare I for a teaching position. I acquire teaching experience through different avenues, some less common than others. I may need teaching experience to apply for a job or to advance I career.

CONCLUSION:

As first states children that attend preschool are able to get that intervention early. For example if they need help with their language development it will be detected from the assessment.

Activity log for the first week

SNo.	Date	Description of the Daily activity
1.	1/10/2022	One the first day I was introduced all three class of children
